

Call for Participation

AAAI-05 Student Abstract and Poster Program

July 9–13, 2005 ■ Pittsburgh, Pennsylvania

Sponsored by the American Association for Artificial Intelligence

AAAI-05 INVITES SUBMISSIONS to the student abstract and poster program. The goal of this program is to provide a forum in which students can present and discuss their work during its early stages, meet some of their peers who have related interests, and introduce themselves to more senior members of the field. The program is open to all pre-Ph.D students. Nonstudent advisors or collaborators should be acknowledged appropriately, as coauthors or otherwise. However, students are requested to honor the spirit of the program by submitting only work for which they are primary investigators.

Submissions and Dates

Electronic submission in PDF format is required. Students should submit an abstract describing their research no later than January 21, 2005. Abstracts must be no longer than 2 pages including references, and formatted in AAAI two-column, camera-ready style. Instructions about how to submit abstracts will be available at the AAAI conference web site (www.aaai.org/Conferences/National/2005/aaai05.html) after October 1, 2004. Papers exceeding the specified length and formatting requirements are subject to rejection without review.

The abstract must include the following: title; the primary author's full name, affiliation, postal address, phone number, URL (if available), and e-mail address; all coauthors' full names and affiliations; text; and any figures, tables, or diagrams. The abstract should also contain a URL of a location where reviewers can access complementary material about the student's research. The URL is critical to reviewers because of the brevity of the hard-copy submission.

Notification of acceptance or rejection of submitted abstracts will be mailed to the author by March 18, 2005. Camera-ready copy of accepted abstracts will be due by April 5, 2005.

Submissions to AAAI-05 or Other Conferences

Students are free to submit abstracts for work reported in a regular paper submitted to the AAAI-05 or another conference, but not for work that has already been published. Abstracts will be accepted or rejected for the stu-

dent session regardless of the outcomes of related paper submissions.

Publication

Accepted abstracts will be allocated two (2) pages in the conference proceedings. Students will be required to transfer copyright of the abstract to AAAI.

Poster Session

Accepted abstracts will be allocated presentation time and space in the student poster display area at the conference. Student authors of accepted abstracts must agree to prepare a poster representing the work described in their abstracts and to be available to discuss their work with visitors during their allocated time in the student poster display area.

Student Abstract Submissions and Inquiries

Please send abstracts to:

AAAI-05 Student Abstracts
American Association for Artificial Intelligence
445 Burgess Drive
Menlo Park, CA 94025-3442 USA

Registration and call clarification inquiries may be sent to ncai05@aaai.org. All other inquiries and suggestions should be directed to the Student Abstract and Poster Program Cochairs:

- Maria Fox, Department of Computer Science and Information Systems, University of Strathclyde, Livingstone Tower, 26 Richmond Street, Glasgow G1 1XQ, United Kingdom; Fax: +44 (0) 141 552 5330.
- Avi Pfeffer, Division of Engineering and Applied Science, Harvard University, 251 Maxwell Dworkin, 33 Oxford Street, Cambridge, MA 02138-0001. Telephone: (617) 496-1876 Fax: (617) 496-1066 E-mail: avi@eecs.harvard.edu
