# AI Crossword Puzzle 

Jon Glick

#### Abstract

Most, but not all, of the clues and answers relate to AI. An answer may be an acronym or an abbreviation even though not noted in the clue. Some liberties have been taken, but only because the puzzle is meant to be fun and interesting. If you'd like a few answers, check out the "AI in the news" column on page 120. And for all of the answers, see the solution on page 116. I wish to thank Bruce Buchanan, Mike Hamilton, David Leake, Reid Smith and Raja Sooriamurthi for their valuable comments and suggestions.

## ACROSS

 help8 a type of book
12 a knowledgeable lab
14 a/k/a user interface design
17 mechanical computer that deciphered Enigma coded messages
18 American Indian tribe members or pickup trucks Down Under
20 colorless, odorless gas emitted by Kat-5 in Nevada race before Smith (Fellow) 14 across in France pester a cognitive architecture robot soccer event opposite of 34 across runs between two points Geometry Theorem Prover and General Problem Solver each had one
30 a bioinformatics center in Beijing
31 this IBM Fellow mined Marks \& Spencer data opposite of 27 across a computing association a cereal grain
NLP system named for Linotype error sequence
43 a first name in neural nets
45 AAAI Fellow Thomas and Oklahoma's Hougen
48
50
51 a web ontology language
53 Judea or nursebot
this moment
project lead
it cleans up
an early AT\&T tablet computer
61 robot degree
63 this Ned loomed large in early 1800s
66 server-side scripting environment or Cobra type
68 air defense system or herb
69 you'll find Alan Mackworth there

70 an associative array
72 initial or goal
74 HAL moved up the alphabet
76 Nilsson
77 Stanford had one
79 before Fahlman (Fellow)
80 an AI Society in Portugal
82 Countess of Lovelace
83 GOFAI alternative
86 Mitchell
88 a wedding phrase
90 tank engine expert or Shortliffe

91 erase
94 Deep Space 1 was one
98 Brachman
101 an application
103 standard measurement quantity
104 a constrictor
106 Engelmore
107 massage
109 an early conference at ACE's home
111 McCarthy
113 universal automation
116 before Laird (Fellow)
117 AI's Bush
118 the Predator is one
119 first name of 49 down's theological advisor
121 Could a robot performer join this union?
124 von Kempelen's player
125 after noon or LT challenge
126 celebrated 25th anniversary in 2005
128 it assists architects
129 an Austrian AI Society
130 a science degree
131 space exploration
133 an early Kurzweil vision
134 CUL8R
136 before CMU
137 CYRUS' conceptual memory secretary
141 an UK AI Society
144 what this is
145 knowledge repr.
146 Sci-
147 maximizes cumulative reward
148 fireplace residue
149 an Italian AI Society
150 Turkish currency

151 Don at AI dawn
154 lots of agents
155 site of AAAI-07
156 models and chains
159 he soared
161 a/k/a Baduk
162 an IASTED conference
163 "he" answered Raphael's questions
164 hypermedia based educational expert system or to inquire
165 what Ecobot II does with flies
167 it found meteorites
168 a Marx brother
169 IBM 701 developer at Dartmouth workshop
171 USC inst.
173 a linguistic law
175 found at International Autonomous Underwater Vehicle Competition
177 a Ford
178 in addition to
182 a representative body for European AI community
185 Gates or Joy
188 a bloody good expert system
