AAAI is pleased to present the AAAI-07 Workshop Program, to be held Sunday and Monday, July 22–23, in Vancouver, British Columbia, Canada. The program includes the following fourteen workshops:

- **Acquiring Planning Knowledge via Demonstration**
- **Configuration**
- **Evaluating Architectures for Intelligence**
- **Evaluation Methods for Machine Learning II**
- **Explanation-Aware Computing**
- **Human Implications of Human-Robot Interaction**
- **Intelligent Techniques for Web Personalization**
- **Mobile Robot Workshop**
- **Plan, Activity, and Intent Recognition**
- **Preference Handling for Artificial Intelligence**
- **Recommender Systems**
- **Semantic e-Science**
- **Spatial and Temporal Reasoning**
- **Trading Agent Design and Analysis**

Participation in the workshop is limited to 25–65 participants. There is a separate fee for attendance at a workshop. Workshop registration is discounted for AAAI-07 technical registrants. Workshop reports are included in the workshop registration fee, and will be distributed onsite during the workshop. In most cases, reports will also be available after the conference as part of the AAAI Press technical report series.

Submission Requirements

Submission requirements vary for each workshop, and in a few cases, slightly earlier submission deadlines have been set by individual workshop organizers. Please mail your submissions directly to the chair of the individual workshop according to their directions. Do not mail submissions to AAAI.

Important Dates

- April 10: Submissions due (unless noted otherwise)
- April 25: Notification of acceptance
- May 15: Camera-ready copy due to organizers
- May 22: Camera-ready copy due to AAAI
- July 22-23: AAAI-07 Workshop Program

For full descriptions and submission instructions, please see the workshop page on the AAAI web site: www.aaai.org/Workshops/ws07.php or write to workshops07@aaai.org
