

## Call for Papers and Participation

AAAI is pleased to present the AAAI-08 Workshop Program, to be held Sunday and Monday, July 13-14 (except as noted), in Chicago, Illinois, USA. The program includes the following fifteen workshops:

- Advancements in POMDP Solvers
- AI Education Workshop
- Coordination, Organization, Institutions and Norms in Agent Systems
- Enhanced Messaging
- Human Implications of Human-Robot Interaction
- Intelligent Techniques for Web Personalization and Recommender Systems
- Metareasoning: Thinking about Thinking
- Mobile Robot Workshop
- Multidisciplinary Workshop on Advances in Preference Handling
- Search in Artificial Intelligence and Robotics
- Spatial and Temporal Reasoning
- Trading Agent Design and Analysis
- Transfer Learning for Complex Tasks
- What Went Wrong and Why: Lessons from AI Research and Applications
- Wikipedia and Artificial Intelligence: An Evolving Synergy

Participation in a workshop is limited to 25–65 participants. There is a separate fee for attendance at a workshop. Workshop registration is discounted for AAAI-08 technical registrants. Workshop reports are included in the workshop registration fee, and will be distributed onsite during the workshop. In most cases, reports will also be available after the conference as part of the AAAI Press technical report series.

### Important Dates

- April 7: Submissions due (unless noted otherwise)
- April 21: Notification of acceptance
- May 5: Camera-ready copy due to organizers
- May 12: Camera-ready copy due to AAAI
- July 13-14: AAAI-08 Workshop Program

### Submission Requirements

Submission requirements may vary for each workshop, but most conform to the schedule below. Please mail your submissions directly to the chair of the individual workshop according to their directions. Do not mail submissions to AAAI.

For full descriptions and submission instructions, please see [www.aaai.org/Workshops/ws08.php](http://www.aaai.org/Workshops/ws08.php) or write to [workshops08@aaai.org](mailto:workshops08@aaai.org)
